

CONCRETE RESIDUE REMOVER

Powerful, non-toxic and biodegradable cleaner for the removal of dried-up concrete and cement residues

Product description

Concrete Residue Remover is a powerful, non-toxic and biodegradable cleaner for the removal of dried-up concrete and cement residues.

Concrete Residue Remover does not contain any harmful ingredients such as hydrochloric acid, sulfuric acid or phosphoric acid.

Concrete Residue Remover can be applied on practically all surfaces without affecting them.

Use

Concrete Residue Remover can be safely applied on several surfaces such as metal, glass, plastic and painted surfaces. Ideal for the daily upkeep of concrete mixers, power trowel and other equipment.

Characteristics

- Effectively removes dried-up and stubborn concrete residues
- Non-toxic
- Biodegradable
- User friendly
- Easy application
- Non-flammable
- Non-corrosive

Technical data

Odour:	Characteristic
Colour:	Light blue
Specific weight:	1,13 kg/L
pH:	~2

Application conditions

Concrete Residue Remover can be used in all dry weather conditions. For optimal results use between 5 and 30°C.

Instructions

1. Apply Concrete Residue Remover undiluted with a spray bottle or low pressure spray on the surface. For large surfaces a backpack sprayer or spray pump is recommended.
2. Let the product sit on the surface for 15-30 minutes before applying a second layer. Repeat the process depending on the pollution.
3. Let the product sit on the surface for 30 minutes up to a few hours.
4. Rinse the surface with a high pressure spray or with a brush and a lot of water.
5. Repeat the procedure if this is necessary

Packaging

1, 10 and 25 L

Consumption

Consumption is 6-8 m²/L depending on the degree and nature of the pollution.

Practical information

- Do not dilute or mix with other products.
- Low temperature can delay the efficacy of the product, adjust the treatment time accordingly.

- Can damage calcareous surfaces (marble, granite, limestone etc)
- Always test on the surface before application to ensure results and applicability.
- Weathered and thick concrete residues will be more difficult to remove. It is therefore crucial to clean equipment and tools as soon as possible with Concrete Residue Remover for optimal results.

Storage

Can be kept for at least 24 months in original unopened packaging. Store in a cool, frost-free place.

Health and safety

Avoid skin and eye contact, wear suitable gloves, protective clothing and safety goggles. If in doubt, always consult the safety data sheet or our R&D department.

Technical support

Mavro is ISO 9001 certified: your guarantee of quality, in terms of products and advice. Our technical consultants and R&D department are always at your service. We are happy to look at your problem or wish with you. Help you with our products or find a solution if it does not yet exist. Call, e-mail or drop by.
