

ICE & SNOW REMOVER

Safe and effective anti-icing solution

Product description

Ice & Snow Remover are safe and fast-acting de-icing beads that melt ice and snow on contact.

Ice & Snow Remover has a very low consumption due to the strong exothermic (warming) effect of the granules.

Ice & Snow Remover works up to 20 times faster than traditional de-icing agents and, especially at extremely low temperatures, is much more effective than normal road salt.

Ice & Snow Remover is safe for the environment and the user and is much gentler on sensitive surfaces than normal road salt.

Use

Ice & Snow Remover is very suitable for making streets, parking lots, schoolyards, bicycle and pedestrian paths, sidewalks and driveways free of ice and snow. Also extremely suitable as a preventive anti-icing treatment.

Characteristics

- Safe and very fast acting.
- Low consumption due to strong exothermic (warming) action.
- Works 20 times faster than traditional road salt.
- Mild for sensitive surfaces such as asphalt and flooring.

Technical data

Color:	White
Odor:	Odorless
Specific weight:	0,85 kg/l
Contains:	Calcium chloride

Application conditions

Ice & Snow Remover can be applied in all weather conditions and up to a temperature of -32°C (unlike road salt -7°C).

Instructions

1. Spread Ice & Snow Remover over the surface to be treated.
2. Immediately after application, the granules will heat up and melt the snow or ice.

Packaging

25kg buckets

Consumption

Snow layer $< 3\text{ cm} = 4,25\text{m}^2/\text{kg}$
Snow layer $> 3\text{ cm} = 1,7\text{m}^2/\text{kg}$
Preventive control = $8,5\text{m}^2/\text{kg}$

Practical information

- Always allow large amounts of melt water to flow to a drain.
- Like normal road salt, the product can be slightly corrosive to unprotected metals. Therefore, be careful when applied to exposed reinforcement in concrete.
- Under normal use, the product poses no risk to plants and lawn. However, overuse can have a detrimental effect, so always use the recommended dosage.

Storage

Can be kept in original sealed container for at least 24 months. Store in tightly closed container in a dry place. Keep out of reach of children.

Health and safety

May cause severe eye irritation. Always wear safety glasses. After working with the product, wash skin thoroughly. When in doubt, always consult the safety data sheet or our R&D department.

Technical support

Mavro is ISO 9001 certified: your guarantee of quality, in terms of products and advice. Our technical consultants and R&D department are always at your service. We are happy to look at your problem or wish with you. Help you with our products or find a solution if it does not yet exist. Call, e-mail or drop by.
