

Tile Protect

High-quality nano-coating for making bathroom tiles and other stone surfaces water- and dirt-repellent

Product description

Tile Protect forms an invisible water and dirt-repellent layer on the surfaces and makes this easy to clean.

Tile Protect is easy to apply and can be used both indoor and outdoor.

Use

Tile Protect has been specially developed for application on light porous mineral surfaces such as bathroom tiles, exposed concrete, terracotta tiles, tile grout, glazed tiles and natural stone.

Characteristics

- Easy to apply
- Waterborne so no odor
- Reduces dirt adhesion
- Protects the surface against e.g. limescale
- Strong water, dirt and grease repellent properties

Technical data

Color:	Transparent
Odor:	Odorless
Specific weight:	1,0 kg/liter
pH:	approx. 5
Contains:	Silanes and fluoropolymers

Application conditions

Ambient temperature: maximum 30°C, minimum 10°C

Substrate temperature: maximum 30°C, minimum 10°C

Relative humidity: maximum 85%.

Instructions

1. Make sure the surface is clean, dry and dust-free
2. Apply Tile Protect evenly with a paint roller.
3. Make sure the substrate is well saturated. Apply a second coat wet-in-wet with a maximum of 30 minutes between coats.
4. Avoid oversaturation, remove excess product with a clean cloth.

Drying

Dust dry:	30 minutes to an hour
Dry:	after 2 - 4 hours

Packaging

500 ml

Consumption

Consumption 5 m² per liter

Practical information

- Do not mix or dilute with other products
- Use Glasprotect for glass

Storage

Can be kept for at least 12 months in original unopened packaging. Store in a cool, frost-free place. Keep out of the reach of children.

Health and safety

Wear suitable gloves, protective clothing and safety glasses. When in doubt, always consult the safety data sheet or our R&D department.

Technical support

Mavro is ISO 9001 certified: your guarantee of quality, in terms of products and advice. Our technical consultants and R&D department are always at your service.
